IT ALL BEGINS NOW! LET'S FLY!

BISI presents the art of DANCE through a film lens that
brings an absolute
nature of uniqueness & artistic flair to the performance,

LIGHTS - CAMERA - ACTION!

As two close friends, Kate & Skylar who love movies
discover they can step into the world
of motion pictures that they grew up watching together.
With a shared passion for film, they decide to collaborate
on their own movie project, combining their creative
vision and technical skills to bring
their story to life. They embark on a fantastical journey
through different genres, experiencing
their favorite stories firsthand and finding the bravery they
didn't know they had.

The CINEMA experience will deepen their friendship while also testing their individual
and collaborative strengths.

(TO BE CONTINUED....BISI brings to you a "2 Part" Production, as we reveal their motion picture creation which will hit the stage in 2027)
